LifeBook® A1120 Notebook

Designed to deliver excellent performance and best-in-class reliability at a very affordable price.

BENEFITS

Easy to Own
There are two ways of approaching your notebook investment. One is to purchase a low cost unit, but the savings are generally eaten up by the maintenance costs and the hassle of dealing with a poorly constructed substandard notebook. On the other hand, high-quality units may cost a little more, but the maintenance costs are lower because the reliability is significantly higher. What if you could purchase a high-quality notebook at a reasonable price? The best of both worlds just became a reality with the affordable LifeBook® A1120 notebook.

The old adage, “you get what you pay for” certainly applies in the highly competitive world of notebook computers. Now the upfront costs of top quality notebooks just became less. Designed, engineered, and manufactured in Japan (leader in quality and reliability) the Fujitsu A1120 LifeBook notebook provides you an easy way to cut costs without cutting performance or reliability.

Performance
With its high-speed Intel® Core™ 2 Duo Processor, the Fujitsu A1120 LifeBook notebook provides all the computing power you will ever need, even for the most demanding applications.

The Fujitsu A1120 LifeBook comes standard with a Dual-Layer, Multi-format DVD writer. The Dual-layer DVD-R or RW technology lets you record up to 8.5 GB of data on a single disc. This nearly doubles the standard DVD capacity of 4.7 GB.

In other words, a Dual-layer DVD-R/RW disc will hold up to 4 hours of DVD quality video or 16 hours of VHS quality video. Dual-layer discs can also be read on DVD players that were originally designed for single-layer discs. Of course you can also make your notebook less of a target for theft. Who would want to take a personal computer that would be so easy to spot?

Flexible Connectivity
With both 56K modem and Ethernet LAN built-in, you can easily connect to your office network and the Internet at home or at work. For wireless connectivity, the built-in Atheros XSPAN® BGN (802.11BGN) wireless offers you a seamless and flexible way to stay in touch using transfer rates as high as 108 Mbps. The webcam adds a fun (and very useful) dimension to staying in touch with family and friends.

Stable and Reliable
The LifeBook A1120 delivers all the key features that have contributed to Fujitsu LifeBook notebooks being named some of the most reliable in the industry. The new LifeBook A1120 notebook also features a strong exterior, highly durable hinges, and a spill-resistant keyboard. It also comes with an easily accessible dust filter. This allows maximum airflow to keep your notebook running as cool as it looks.

In a time when most PCs are assembled by third-party vendors, Fujitsu takes pride in its own world-class design, rigorous testing, and manufacturing capabilities. Fujitsu provides extremely high quality mobile computers with one of the lowest failure rates in the industry.
## KEY SPECIFICATIONS

### Processor
Intel® Core™ 2 Duo Processor T6400 (2GHz, 2MB L2 cache, 800 MHz FSB)

### Chipset
Intel® GM45 Express Chipset

### Memory
4 GB Max (2 GB x 2); DDR2 800 SDRAM dual-channel memory

### Shared Video Memory
3 GB 1,295 MB 1,295 MB

### Video Graphics
by the amount of

### Hard Drive
320 GB Serial ATA 5400 rpm hard drive

### Optical Drive
86x DVD-ROM, 5x DVD-RAM, 8x DVD-R, 4x DVD-R (DL), 8x DVD-RW, 8x DVD-R, 4x DVD-R (DL), 8x DVD-RW

### Audio
Realtek® codec ALC269 with 2-channel High Definition (HD) audio.

### Operating System
Microsoft® Works 9.0 and Microsoft® Office 2007 (Service Pack 1)

### Compliance and Service Information

### Warranty
One- or three-year International Limited Warranty on select corporate configurations; 24x7 technical support; Fujitsu extended service plans available.
